<sup>1</sup> At-risk students are not considered to have social maladjustments or learning disabilities and are therefore not subject to weighting.

<sup>2</sup> Compensation for oversize classes is paid when, in the course of the year, no or demonstrably inadequate services are available to the student.

<sup>3</sup> A priori Weighting: These students must be weighted when establishing the maximum number of students per group (code 14). The same procedure applies to handicap students with pervasive developmental disorders and to students with psychopathological disorders (codes 50 & 53).
